Turn your passion for tech into your future. You've got what it takes!

"From receiving the Amazon Future Engineer Scholarship to spending my summer interning at Amazon, it's amazing to see how far one opportunity can take you. This scholarship has opened doors I never imagined and connected me with some amazing people along the way. I'm excited to keep growing, learning, and hopefully inspire others to chase opportunities they might think are out of reach."

Duke B.
2025 Scholarship Recipient
